SYSTEMAT

a passion for solutions

Public Sector

SYSTEMAT provides public services and related institutions with a commercial team which is entirely dedicated to the public sector. SYSTEMAT's Public Sector team benefits from a decade's experience and from training in the rules for public contracts for which it has numerous references.

Complete coverage of the public sector in Belgium

Administrations	Health care
Education	Various institutions

SYSTEMAT's Public Sector team is composed of ten commercial employees spread over the company's different regional establishments. All services offered to SYSTEMAT's private clients are also accessible to public bodies, such as:

- Framework agreement for the purchase or rental of equipment and related services
- Outsourcing solutions for IT services

SYSTEMAT also offers small government institutions and public bodies (local administrations, etc.) a range of IT services adapted to their needs and budget.

Types of bodies and institutions

The Belgian public sector is composed of various institutions. Below the main ones are listed:

- Services Publics Fédéraux/Federale Openbare Diensten (SPF/FOD) and Services Publics de Programmation/Programmatorische Overheidsdiensten (SPP/POD) as well as related bodies and institutions
- Federal legislative institutions
- Federal government
- Community and regional ministries
- Community and regional legislative institutions
- Community and regional governments as well as related institutions and bodies
- Provincial governments
- Cities and communities, CPAS/OCMW, local police zones, etc.
- Various bodies (National Health Service federations, inter-municipal companies, Tourist Offices, embassies, etc.)
- Advisory and control bodies
- International organisations

SYSTEMAT's 10 strong points

- Dedicated and specialised commercial team
- Training in the rules for public contracts
- Commercial investment in the public sector since more than 10 years
- Long-term partner of the sector
- Regular participation to specific fairs and events
- Regular obtaining of important long-term contracts
- Infrastructure and organisation adapted to large distribution
- Leasing solutions adapted to the public sector
- National geographic presence (Belgium and Grand Duchy of Luxemburg)
- Continuous investment in acknowledged quality standards

A proven quality

In our logistic-technical laboratories in Jumet, Systemat subjects the IT equipment to very severe tests. The work tool of your employees is thus exhaustively analysed, configured and integrated beforehand. These facilities serve also as logistic centers for the preparation and coordination of extensive deployment projects.

The continuity of your activities is our priority

Data have no value if you cannot access it at all times. Systemat offers you a number of means to store and retain your data in an efficient and secure way. Thanks to emergency scenarios which we'll establish for your platform, your organisation will be no longer paralysed if your IT system should break down. We will mobilise the best personnel, the best equipment and the best software in order to restore your data as soon as possible.
