

CLOUD MAIL BY SYSTEMAT

Cloud Mail is the solution that offers you real-time availability of your E-mail, calendars and contacts, wherever you are and from any desktop or mobile device (laptop, smartphone, tablet, etc.).

Cloud Mail proposes the best technologies available on the market:

- Microsoft Exchange
- Symantec AntiVirus and AntiSpam in order to ensure better safety of your data.

Each company profile corresponds to specific needs. To satisfy these requirements and offer you a tailor-made response, Systemat proposes three different versions of its Mail solution:

PLUS

A budget-oriented solution with basic E-mail functionalities

- ▶ Outlook Web Access only

ADVANCED

A complete offer that meets most E-mail needs in businesses.

- ▶ Support for Outlook included

PREMIUM

For the most demanding needs, thanks to an advanced archiving solution

- ▶ Support for Outlook included + Archiving solution

MAIN BENEFITS

More flexibility

For your employees in their day-to-day work and for your own management of internal resources.

Optimal availability and security

You get all the benefits of our high-tech infrastructure. Completely redundant systems in two physically sepa-

rate data centres, with the highest level of security on the market.

Proximity

Systemat is a local partner that offers you hosting, installation, migration and support services.

Your data remain in the BELUX (*) region, governed by local and European legislation.

(*) Or in the European region for the Symantec's Archiving solution.

CLOUD MAIL

Integrated solution

As a local Cloud integrator, Systemat offers you integrated solutions, so that you get a single user environment. As such, Cloud Mail can be integrated into our overall Cloud offer, so that you also have access to our full support (hardware, software, and services).

LIST OF CLIENTS / PLATFORMS SUPPORTED BY CLOUD MAIL *

WINDOWS	Windows 7 or higher
Outlook	2007 version or higher
MAC	Apple Mail version 4 (OS X.6)
Outlook	2011 version
MOBILE CLIENT	iOS, Android, Windows CE, Windows Mobile, BlackBerry

* Detailed list available in the Scope of Services, which is appended to the Final Cloud Offer.

GREEN-IT

- Opting for the Cloud is an environmentally responsible thing to do. Virtualising servers and sharing hardware generate economies of scale in terms of the electricity consumption needed to power the servers and their air conditioning: Think about it!

ENTERPRISE MOBILITY MANAGEMENT

- The Cloud greatly facilitates secure access to your company's data from mobile devices of all types: smartphones, tablets, etc. The benefit for you is a gain in productivity and greater convenience for users. This still obviously raises the matter of managing these mobile devices correctly, particularly from the security standpoint. Systemat will be your partner.

WHAT WILL YOU PAY FOR?

- A Cloud hosting charge (recurring fee)
- Licence fees (recurring fee)
- The installation and migration service charge (fixed start-up cost)

Optional:

- Cloud User Support provides unlimited Incident Management by telephone or on site and handles Change Management at a very preferential rate.
